---

---

Itemized Expenses that you are requesting with this application:

---

---

---

---

---

### 4. SUBMITTING YOUR APPLICATION AND DETAILS OF GRANTS

Please submit completed applications by mail or email to: Maine Natural History Observatory, Glen Mittelhauser, 317 Guzzle Road, Gouldsboro, ME 04607; mainebirdatlas@gmail.com.

Applications should be submitted as soon as possible to be considered for the 2022 breeding season. We have a limited grant budget for the 2022 season, and applications will be reviewed in the order received.

Project staff will review your application and respond to your proposal as soon as possible. If your grant request is approved, you will receive a check for 25% of your grant request. Once you have completed your field work and completed the atlas block survey, send us an email (mainebirdatlas@gmail.com) and we will mail you the remaining 75% of your grant. Final grant checks may not go out until August as atlas staff will be out atlasing in remote priority blocks for much of June and July - thank you for your patience.
